Red = New/Updated Information

Acadia HealthCare

Largest Behavioral Network in the US. and Puerto Rico

Each of Acadia Healthcare's facilities aim to treat patients in a Holistic way. In addition to tailored treatment plans, each treatment center has unique amenities for our patients that help aid in recovery, from spa-like environments to equestrian therapies and so much more.

We have joint partnerships with the Jason Foundation that focuses on mental health and suicide prevention. We also have a large VA initiative with campuses that work specific to this population. The reach is expansive, but the care is intimate and tailored to the person seeking help. My job is to take each person from the moment they seek help and tailor an experience based on the individual's needs and desires. I stay with each client and family from beginning to end. No call centers, dealing with numerous people, repeating the same info and being denied or waiting for hours on end. No surprises with additional costs or out of pocket expenses. Your care comes first.

Our Core Therapies: (MI) Motivational Interviewing, (CBT) Cognitive Behavioral Therapy, (REBT) Rational Emotive Behavior Therapy, (DBT) Dialectical Behavior Therapy, (EMDR) Eye Movement Desensitization & Reprocessing, Trauma Therapy, etc. depending on location and needs.

Medication-Assisted Treatment (MAT): Medications offered at our programs include buprenorphine, Suboxone, Vivitrol, Methadone and Sublocade.

Expressive and Holistic Therapies: Yoga, Meditation, Fitness, Art, Music, Spiritual programs, reiki, aromatherapy, reflexology, equestrian therapy, animal therapy etc.

Recovery Groups: Our clients have the opportunity to participate in recovery groups while in treatment. Groups such as Narcotics Anonymous and Alcoholics Anonymous that follow the 12-step philosophy are extremely helpful for many people both new to recovery and those who have been in recovery for years. Alternatives to 12-step groups are also offered.

Sober Escorts: We have been providing reliable transportation to treatment for over 30 years.

FACILITIES:

Acadia has over 100 facilities ranging from adolescent care, eating disorders, mental health, adult care, addiction and dual-diagnosed facilities.

Some of our most popular sites for New York and the surrounding areas are:

Pocono Mountain Recovery: Adults: detox and rehab – Henryville, PA

Pocono Mountain Recovery: PHP program for adults (*hands down one of the best out there*)

Huntington Creek for Adults: Detox and Rehab – Henryville, PA

Huntington Creek Adolescent Male only: Residential – Henryville, PA
The Village for Adolescents: Residential East Tn (hands down one of the most sought-after Adolescent Programs in the US) Can also see Tricare.
The Refuge: FL
The Wellness Center: FL
12 Oaks: FL
Wilmington Treatment Center: NC (just voted one of the top places to go) accepts Medicare, Tricare, etc.
Drive-In Clients- We are able to offer free transport to treatment at locations within driving range. We pick up and take back home at no charge.
Air Travelers- For clients that want to FLY to treatment, we help arrange this with each client.
Contact – Bob for referrals and assistance - 3154971412 and email is rf.acadiascreening@gmail.com

American Addiction Centers

Multiple sites nationwide

At American Addiction Centers we aim to treat the whole person, which means addressing co-occurring mental illness, physical wellness, and social issues with addiction treatment. In addition to tailored treatment plans, each treatment center has unique amenities for our patients that help aid in recovery, from spa-like environments to equestrian therapies and so much more.

Our Core Therapies: (MI) Motivational Interviewing, (CBT) Cognitive Behavioral Therapy, (REBT) Rational Emotive Behavior Therapy, (DBT) Dialectical Behavior Therapy, (EMDR) Eye Movement Desensitization & Reprocessing

Seeking Safety: Developed by Lisa M. Najavits, PhD, this therapeutic approach is appropriate for the patient who has experienced trauma, such as past sexual, emotional, or physical abuse. This program helps patients learn to cope in healthy ways that don't involve substance use. Patients taking part in the Seeking Safety curriculum can count on their privacy being protected (for example group times and locations are kept confidential), as they work through very difficult and traumatic events.

Medication-Assisted Treatment (MAT): Medications offered at our programs include buprenorphine, Suboxone, Vivitrol, and Sublocade.

Pharmacogenetic Testing: When it comes to administering any medications, we are committed to providing the very best treatment for you as an individual. AAC is a strong proponent of the field known as Pharmacogenetics, which uses the knowledge of an individual's genetic makeup to inform what medications will be most effective for them in treatment. AAC's Addiction Labs of America process genetic tests within 24-hours, and integrate the knowledge into individual treatment plans.

Expressive and Holistic Therapies: Yoga, Meditation, Pilates, Tai Chi, Fitness, Art, Music or Spiritual Reflection.

Recovery Groups: Our clients have the opportunity to participate in recovery groups while in treatment. Groups such as Narcotics Anonymous and Alcoholics Anonymous that follow the 12-step philosophy are extremely helpful for many people both new to recovery and those who have been in recovery for years.

Alternatives to 12-step groups, such as SMART Recovery, are also offered at AAC programs, for those who are uncomfortable with the 12-step model or the concept of a “higher power”.

Sober Escorts: AAC utilizes the help of retired US Navy Seals to escort our patients safely door-to-door to our facilities when needed. I have used them over a dozen times and they are nothing short of amazing.

FACILITIES:

Greenhouse-Dallas, TX: www.greenhousetreatment.com

River Oaks-Tampa, FL: www.riveroakstreatment.com

Oxford-Etta, MS: www.oxfordtreatment.com

Sunrise House-Lafayette Twp, NJ- www.sunrisehouse.com
